

Caribbean Grain and Produce Exchange Commodities Trades

Focus...

HAITI

Mission Goals

- *Provide common effort to procure and import high quality staple foods such as rice, wheat, corn, legumes, vegetables and healthy grains*
- *Enhance local agricultural infrastructure and production capacity*
- *Promote export of local produce*

Trade Booth One

Haitian Produce

Agricultural production in Haiti represents 30% of GDP and employs 50% of the work force.

Currently the farms are mostly dedicated to subsistence farming. However, investment opportunities in the agricultural sector show promise due to the quality of the available arable land, experienced labor force, and amazing recovery of production after the earthquake in 2010 and Hurricane Matthew 2016.

Land on the plains has the advantage of being located adjacent to the sea, making it easier to access *international markets*.

Haiti: Top Exporter of Mangoes in The Caribbean Region.

•Haiti is able to produce mangoes almost all year round in different regions of the island thanks to its diversity of microclimates:

Mango Production Calendar

- ❖ *Leogane*: October - December
- ❖ *Le Plaine de Cul de Sac*: November - February
- ❖ *Arcahaie and Cabaret*: January - March
- ❖ *Artibonite*: April - June
- ❖ *Central Plateau*: May - June
- ❖ *Gros Morne - Port-de-Paix*: June - September

With over *140 varieties* of mangos, it is estimated that Haiti is only exporting 20% of its potential output despite the high demand on the international market.

As a result, it has attracted a company like  to choose Haiti's mango juice for its products.

Cassava

- *Haiti could be one of the leading cassava growers and processing source for high quality cassava products.*
- *Our goal is to increase cassava production in our region to produce Ethanol as an alternative use for biofuel*
- *As well as essential ingredients for processing*
 - *Cassava Fries and Bread*
 - *Tapioca*
 - *Glucose Syrup*
 - *Glue and Starch*
 - *Pharmaceutical Products.*

Cacao

- Haiti's cacao is known to be of the best qualities in the world. It is grown in the northern and southern part of the country by an estimated 20,000 independent producers.

- The Northern region includes Grande Riviere du Nord, Acul du Nord, Port Margot, Borne (Ti bourg) St-Raphael, Dondon and Milot
- The Grande-Anse covers Dame-Marie, Chambellan, Anse-d'Hailnaut, Moron, and Marfranc with Petit Bourg in the north and Dame-Marie.

- National production has been estimated to be 4,500 metric tonnes in 2009 of which 3800 metric tonnes are exported via only two distributors, Novella and Wieners

Trade Booth Two: Rice

A variety of Rice from all over the world: Thailand, Vietnam, India, USA, and, of course, Haiti.
